

Say **YES!**

Return Service Requested

Thank you for saying
YES!

YES!

Nathalie and children in the region have a brighter future because of partnering relationships among Haitian clinic staff, HMMW donors and volunteers who say, “YES!” Immunizations, dental sealants, and vision care all boost children like Nathalie’s chances to succeed in school and life.

YES!

Because you said, “YES!”, Fluerima can again see the smiling faces of her children, and is able to sew to support her family. She traveled 11 hours to receive sight restoring surgery from HMMW volunteers.

“YES!” Is powerful! “YES!” Makes a difference!

For nearly 20 years, HMMW donors and volunteers have been saying, “YES!”, to rural south east Haiti.

Clinic staff and volunteers improve health for over 6,500 patients and their families annually.

“We are better clinicians and practitioners at home after volunteering in Thiotte” - Dr. Bill Cooke

Say “YES!” to someone you care about and feel a smile grow.

1. Together with friends, “YES!”, anything is possible - just ask HMMW volunteers!

Please help HMMW grow support for Haiti by sharing HMMW's story with your network of friends. Perhaps, you and four friends or neighbors can create a challenge gift or pool your gift to donate \$100, \$250 or \$500 by Oct. 14th. Every gift, of any amount, will help improve health for our Haitian neighbors.

2. By saying “YES!” you are giving ...

- jobs, training and resources to Haitian health care providers to care for their community
- specialty care through collaborative efforts of HMMW volunteers, other partnering organizations and Haitian practitioners
- clinic and hospital upgrades to the 15 year old facility, to meet growing demands for services
- expansion of services with the goal of providing sustainable, Haitian-based general surgery, dental and eye health care for 120,000 people throughout the Thiotte region

YES!

“YES!” In 1997, HMMW founder Dr. Maureen Murphy, colleagues, and friends in the Baraboo and WI Dells area, began to help the Thiotte community in rural south east Haiti, where no health care existed.

“YES!” In 2001, through generous donations from people like Dr. Tony & Marian DeGiovanni and others, a clinic and hospital, Centre de Santé Sacré-Cœur de Thiotte (CSST), was established in Thiotte.

“YES!” Now, HMMW & CSST are gearing up for expanded sustainable, Haitian-based preventive, primary, dental, eye, and general surgery services. Improvements being evaluated include equipment and facility use.

Please, say “YES!” now, to grow Haitian-based solutions and continued partnerships to improve health for people living throughout the Thiotte region of rural south east Haiti.

“YES!” please donate now at haitimedicalmission.com or use the enclosed envelope - thank you!
